

Goat Gifts from Wood & Stream Creations: Afghans & Linens

INGA AT THE SETER -

This beautiful throw or wall hanging of many colors measures 35" x 50". In the summer, Norwegian girls took the cows, sheep and goats to the seter in the uplands for grazing.

Inga was a hard working

"budier," or dairymaid. She enjoyed the warm summer afternoons herding the animals. She had named some of her favorite playful goats. Here you see the goat eating Inga's bouquet of wild flowers. Both nissen are watching with amusement!
